Bollard

Inox

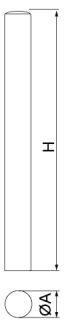

Embedment anchoe | Removable anchor | Embedded base | Stainless steel | T-handle wrench | Low maintenance

ISO 9001 | ISO 50001 | ISO 14001 | ISO 45001

Stainless steel designer bollard, made of polished AISI-304 stainless steel. Recommended anchoring: Built-in base and concrete rods.

Stainless steel: Structural alloy with a high chromium and nickel content, resistant to corrosion. High resistance to weather, humidity, UV rays and chemical agents present in urban environments. Thanks to the natural formation of a protective passive layer, stainless steel does not require additional coatings, ensuring excellent durability, low maintenance and a clean, timeless appearance – even under demanding conditions such as coastal or industrial areas.
