Playground collection **made with maintenance-free materials**: mixed extrusion post made of aluminum and polymer, one-piece aluminum steps and the anti-slip polymer platforms. The user will find inclusive games in every part of the structure.

A=9460mm 67m2 2.00m 35
B=9450mm

Materials:

Structure, Mixed extrusion: 90x90 self-coloured posts with extruded aluminium core. Clamps prefixed in the correct position to facilitate the assembly of the set.

Panels, HDPE: high-density polyethylene characterised by its resistance to chemical abrasives. As a polymer, it is unaffected by corrosion. Due to its light elastic nature, it offers high resistance to impact, making it very difficult to break.

Platforms, Plastic: floor made of high-density polyethylene with anti-slip surface and holes for water evacuation.

Fixings: electro galvanised and stainless steel quality 8.8 DIN267, AISI-304.

- None of the materials requires a specific treatment for its disposal.
- If the product is subject to severe use, maintenance should be increased.
- Don't use the product before the installation/maintenance is ready.
- Please check the maintenance instructions.
