Spring swing

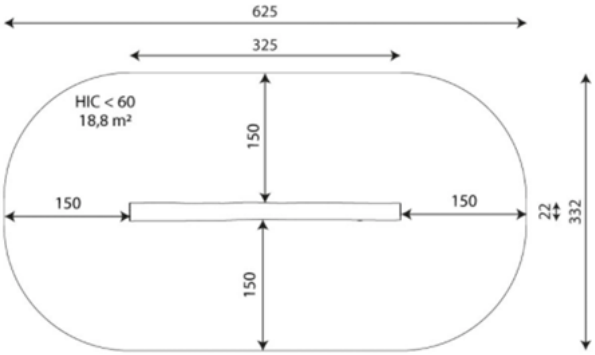

Tronco

JROY29

1+

Certified EN1176 product

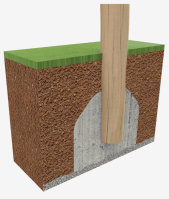

For those who believe that pedagogy goes beyond play itself, those who want children to be educated in respect for nature, to learn to value the imperfection of the authentic, or simply **for those who seek artisanal character in their projects,** the ROY collection is the perfect alternative.

Materials:

Robinia Wood Posts: Circular cross-section posts made of Robinia wood. They are characterized by their strength and durability. Their trunks are formed entirely of heartwood, the hardest part of the tree. It is a living material, therefore small cracks may appear, which do not affect its lifespan, which can reach up to 20 years.

Nets, Vandal-resistant reinforced rope: Ø 16mm, 6 braided steel strands coated in polypropylene. Highly durable plastic connectors.

Metal parts: AISI-304 stainless steel.

Screws: Electrical screws and made of 8.8 DIN267, AISI-304 stainless steel.

- None of the materials require special treatment for disposal.
- If the equipment is subject to severe use, the maintenance plan should be increased.
- Do not use the product before completing the installation/maintenance.
- Consult maintenance instructions.

Ground anchoring screws not included.

Playful features:
