STIL canopy with bench and no sides, total dimensions (length x width x height) 4000 x 2696 x 2020 mm, made of polished AISI-304 stainless steel, with bench and no sides. Roof panel (galvanized and pre-painted polyurethane injection) with three 80 x 80 mm pillars, support for fixing with brackets and horizontal profiles for enclosure with laminated safety glass. Delivered in a kit with accessories and assembly instructions. Recommended anchoring: ground embedding.

Steel with a hot-dip galvanizing treatment to protect it from corrosion. Our galvanizing process complies with the UNE EN ISO 1461:2009 standard and involves immersion in a crucible of molten zinc at 450°C, during which a reaction occurs between zinc and steel resulting in different layers of alloy between the two metals, culminating in an external coating of pure zinc. To ensure proper application of the process, it is essential to subject the pieces to a preliminary process of degreasing, pickling, and fluxing.
