steel

IRIS carport with bench and 1 side panel, total dimensions (length x width x height) 4000x1980x2750 mm, made of polished AISI-304 stainless steel, with bench and 1 side panel. Stainless steel roof with tubular structure and 8 mm polycarbonate panel, with three 60x80 mm pillars, support for fixing screwed into the side profiles where the enclosure is mounted with laminated safety glass. Delivered in a kit with accessories and assembly instructions. Recommended anchoring: ground embedding.

Stainless steel: Structural alloy with a high chromium and nickel content, resistant to corrosion. High resistance to weather, humidity, UV rays and chemical agents present in urban environments. Thanks to the natural formation of a protective passive layer, stainless steel does not require additional coatings, ensuring excellent durability, low maintenance and a clean, timeless appearance – even under demanding conditions such as coastal or industrial areas.
