SEMI-CIRCULAR STAINLESS STEEL Litter Bin, total dimensions (width x depth x height) 540x455x905 mm, 40 litres, made with a semi-circular, hinged bucket in polished AISI 304 stainless steel supported by a Ø40 mm tube structure with an anchoring base and rectangular plates with two Ø12 mm holes for fixing to the floor. Finish: Epoxy primer and grey polyester powder paint. Prepared for anchoring with 4 M8 expansion bolts depending on the surface and project. Optional not included: Customizable marking with 74x35 mm/80x100 mm aluminum plate.

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
