OLEA designer Litter Bin , total dimensions (Ø x H) 415 x 805 mm, 85 liters, made of Corten steel sheet (maintenance-free). Inner ring for securing the bag. Prepared for anchoring with four Ø10 expansion bolts, depending on the surface and project.
Optional not included: Customizable marking with 74x35 mm/80x100 mm aluminum plate.

Corten steel: The material itself creates its own protection through oxidation. The oxidation process goes through different stages of color until it reaches "stop," which is when it acquires its final color and stops losing rust and staining.
The oxidation process and its tone vary depending on the location where the product is installed and the sun/rain/wind cycles to which it is exposed.
