Litter Bin by VIDA XXI, total dimensions (width x Ø x height) 485x380x840 mm, 40 liters, made with a folding steel bucket (treated with the Ferrus process, the triple-layer protector for iron, which guarantees optimal corrosion resistance), with a subsequent layer of epoxy primer and baked-on polyester paint. Forged black color. Incorporates an iconography. Anchoring base and rectangular plates with two Ø12 mm holes for fixing to the floor, gray finish. Prepared for anchoring with 4 M8 expansion bolts according to surface and project.
Optional not included: Customizable marking with 74x35 mm/80x100 mm aluminum plate.

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
