Low maintenance

ISO 9001 ISO 50001 ISO 14001 ISO 45001

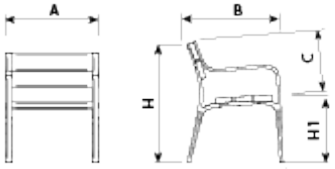

CITIZEN ECO designer Bench , total dimensions (length x height x depth) 1800x810x650 mm, made of ReBnew plastic (BENITO's recycled polymer that is produced entirely from yellow bin packaging and requires no maintenance) both the feet and the seat and backrest with square section metal reinforcement in the seat for greater structural strength. A bench that is not affected by humidity or corrosion. Stainless steel screws. Prepared for anchoring with M10 expansion bolts depending on the surface and project.
Optional not included: Customizable marking with 74x35 mm aluminum plate.

ReBnew: 100% recycled polymer, sturdy and durable, derived from urban, industrial, and domestic waste... It is weather-resistant, resistant to oils, acids, and seawater. It does not splinter or crack, nor does it rot or dry out.

Irregular surface finish makes the board extremely durable as it effectively hides scratches caused by vandalism. Nevertheless, surface scratches can be repaired to restore it to a like-new condition.

Scratch Repair on ReBnew

AWARDED WITH "DER BLAUE ENGEL": Product with low environmental impact throughout its lifecycle. It is awarded to products that meet criteria for reducing environmental impact in manufacturing, recycling, packaging, use, emissions, collection, and disposal. In addition to environmental criteria, it includes quality, safety, energy consumption, and other considerations. It is one of the most prestigious labels globally.
