Low  
maintenance

**Fountain FONTI, total dimensions (Ø x H) 370 x 935 mm, made of stainless steel, polished stainless steel finish. Prepared for anchoring with three M8 expansion bolts according to surface and project.**

**Stainless steel:** Structural alloy with a high chromium and nickel content, resistant to corrosion. High resistance to weather, humidity, UV rays and chemical agents present in urban environments. Thanks to the natural formation of a protective passive layer, stainless steel does not require additional coatings, ensuring excellent durability, low maintenance and a clean, timeless appearance – even under demanding conditions such as coastal or industrial areas.
