Speed reducer

Slow 600 x 50

VBA11

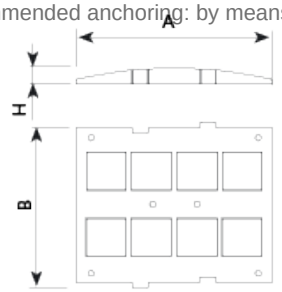

Big-Slow 900 x 50
VBA14

BIG SLOW, speed reducer designed to limit the speed of vehicles and to ensure greater security of drivers and pedestrians

Made of **100% recyclable and ecological** material. Modular set forming a speed-reducing band. Made of natural rubber with visible black and yellow stripes parallel to the direction of traffic. Highly retroreflective and anti-slip. Adapts perfectly to the pavement, shock absorbing, does not degrade nor crack and does not produce noise pollution.
50mm speed reducer for public roads with a speed limit inferior to 50 km/h.

Recommended anchoring: by means of M8 bolts and a plastic anchor, not included.

As a general rule, it is recommended to install speed reducers in places where running speed exceeds 30km/h and represents a danger for PEDESTRIANS.
According to regulations, SPEED REDUCERS must respect a minimum distance of 50 metres between them; the distance cannot exceed 200 metres.
- Work zones.
- Car parks entries and exits.
- School surroundings.
- Crowded areas.
