BIKI LUX – Self-service bicycle maintenance station
BIKI LUX is a public bicycle maintenance station that brings together in one place all the tools necessary for the **repair, maintenance and tuning** of the bicycle.
The station allows **you to secure your bicycle at the top** using stands with special protective covers that prevent damage or scratches to the frame. Once used, these stands can **be stored inside the station** , avoiding obstructions in public space and reducing the risk of accidental bumps.
For its use, the station has a **coin holder system** , similar to that used in supermarket trolleys, which ensures that, once maintenance is completed, the station is tidy and ready for the next user.
The inflator is **manual** , with **a pressure gauge integrated at the top** and **a double inlet valve** , compatible with all types of wheels.

Materials
Main and secondary body manufactured in **steel**
Treatment with **an epoxy primer layer** and **special polyester paint for exteriors**

Top quality tools:
Allen keys
Screwdrivers
Pliers
Levers
Fixed wrenches
All tools are **attached to the body using steel cable** to prevent loss or vandalism.

Fixation
Anchoring to the ground using **4 screws of Ø 10 mm**
Screws **not supplied**
