ReBnew material

20 years warranty

Low maintenance

ISO 9001 ISO 50001 ISO 14001 ISO 45001

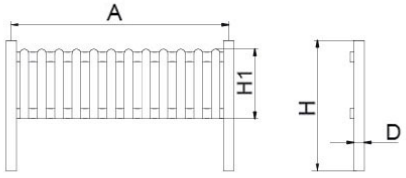

REB Fence , overall dimensions (length x height) 2500x1500 mm, manufactured from ReBnew plastic (BENITO's recycled polymer, produced entirely from yellow recycling bin containers and requiring no maintenance), composed of 120x120x1500 mm posts and 2500x800 mm slats. Compliant with EN1176 standards, ideal for Playground fencing. Embedded in a prepared concrete surface, according to the surface and project requirements. The horizontal crossbars have internal reinforcement with a rectangular metal section.
*** It is supplied in 2.5m sections and you must indicate the number of posts required for installation.**

ReBnew: 100% recycled polymer, sturdy and durable, derived from urban, industrial, and domestic waste... It is weather-resistant, resistant to oils, acids, and seawater. It does not splinter or crack, nor does it rot or dry out.

Irregular surface finish makes the board extremely durable as it effectively hides scratches caused by vandalism. Nevertheless, surface scratches can be repaired to restore it to a like-new condition.

Scratch Repair on ReBnew

AWARDED WITH "DER BLAUE ENGEL": Product with low environmental impact throughout its lifecycle. It is awarded to products that meet criteria for reducing environmental impact in manufacturing, recycling, packaging, use, emissions, collection, and disposal. In addition to environmental criteria, it includes quality, safety, energy consumption, and other considerations. It is one of the most prestigious labels globally.
