

VVL02
Fence
LUNA

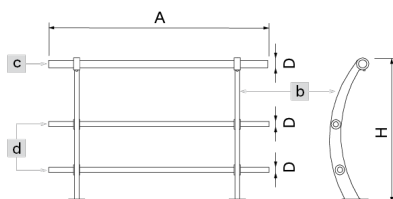

M10 bolts
fixing

LUNA Fence , total dimensions (length) 1000 mm, made of iron (treated with the Ferrus process, the triple-layer iron protector, which guarantees optimal corrosion resistance). Post spacing: 2 m, prepared for anchoring with three M10 expansion bolts according to the surface and project.

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.
