Roy 16 Climbing Set Ref. JROY16 Robinia posts with anti-vandal ropes Ø16 mm coated in polypropylene. Stainless steel AISI-304 parts and safety screws. Dimensions 3050x180x180 mm, max piece 69 kg.

Resistant and sustainable materials (Robinia, stainless and galvanized steel), long durability, maintenance-free, 10 years spare parts availability.

Posts, Robinia wood: round posts made of Robinia wood. Robinia is characterised by its resistance and durability. Its trunks are formed entirely by heartwood, the hardest part of the trees. It is a living material, it is therefore possible that small cracks appear. However, they do not affect the durability that can reach 20 years.

Nets, Anti-vandal reinforced rope: Ø 16mm, 6 twisted steel cables, covered in polypropylene. High durability plastic connectors.

Metallic parts: AISI-304 stainless steel.

Fixings: electro galvanised and stainless steel quality 8.8 DIN267, AISI-304.

- None of the materials requires a specific treatment for its disposal.
- If the product is subject to severe use, maintenance should be increased.
- Don't use the product before the installation/maintenance is ready.
- Please check the maintenance instructions.

Biggest part (mm): / Heaviest part (kg):

IMPACT ZONE: security area and ground coverings according to the EN1176-1:2017 standard.

Spare parts availability: 10 years.

As part of the natural process of wood, cracks as a result of drying or surface tension can occur, which have no negative influence on the quality or lifespan.
